- 1600m relay

FRIDAY NIGHT UNDER THE LIGHTS!! This is one of our big time meets. We've had a meet this past Tuesday to hone our skills, and now we're primed and ready to compete at a high level. The combination of good competition, good training all year, and the excitement of a night meet all lead to best performances of the year. Remember when things get nerve-wracking or difficult, that you are well prepared and PSYCHED UP! Let's go out there, compete hard, break some PR's, and score some points. We've done a good job getting to finals, competing hard, and scoring points in nearly every event all year in our invites. Let's continue this trend Friday!

Traditionally, we have done very well at this meet, and I'm looking for that trend to continue. But this does not just happen. You have to make it happen. So be prepared physically and mentally to compete with the best.

This meet also gives us a little preview of our top conference competition: St. Charles East, West Aurora, and Batavia. Let's be ready to battle these schools along with all the others.
