- 300m hurdles
- 1600m run
- 200m dash
- 4x400m relay

This is always one of my favorite meets of the year as it has a lot of history and contains all the local teams which makes it unique. We've had a meet this past Tuesday to hone our skills, and now we're primed and ready to compete at a high level. The combination of good competition, good training all year, and the excitement of an evening meet all lead to good performances. Remember when things get nerve-wracking or difficult, that you are well prepared and ready for this! **TRUST** your body, **TRUST** your training, and **TRUST** yourself. Be **CONFIDENT!** Be **AGGRESSIVE!** Let's go out there and compete hard, break some PR's, earn some top places, and cheer on your teammates!

Traditionally, we have done very well at this meet, and I'm looking for that trend to continue. But this does not just fall into place, you have to make it happen. So be prepared physically and mentally to compete with the best.

It will also be a little chilly on Thursday, especially when the sun begins to drop, so plan to warmup well, dress for the weather, and keep your warm clothes on as long as possible.
